- A source independently verified via ASVS (Certificate CERT-2026-590845) alleged that data points were excluded to artificially inflate the treatment's efficacy.
- According to materials verified by ASVS (Certificate CERT-2026-590845), varying baseline adjustments were used, leading to discrepancies in published results.
- The journalist noted that quantitative discrepancies were specific and verifiable against published data, as confirmed by ASVS's certification process (Certificate CERT-2026-590845).
- An audio recording verified by ASVS (Certificate CERT-2026-590845) corroborated that internal concerns regarding data integrity were expressed by a second lab member.

This certificate attests to provenance and integrity, not to the truth of the underlying allegations.
